Ateneo Services

Problem Statement

Students, specifically from Business, Arts, and clubs will need a platform to promote their products and services offered.

Therefore, a website/app can provide their services and products, which can range from: purchasing artworks to hiring the dance for service.

Target Users

→ Students and Buyers from the common, general public

Why?

A platform like this will give Ateneo students the opportunity to practice business during their educational path while contributing to the common, general public with services that will be offered compared to before.
